TIMBERCORP SECURITIES LIMITED
(UNDER ADMINISTRATION) ACN 092 311 469
IN ITS CAPACITY AS RESPONSIBLE ENTITY OF EACH OF THE
MANAGED INVESTMENTS SCHEMES LISTED IN SCHEDULE 1
First Plaintiff

MARK ANTHONY KORDA and LEANNE KYLIE CHESSER
Second and Third Plaintiffs

FIRST AFFIDAVIT OF MARK ANTHONY KORDA

Date of document: 4 June 2009 Filed on behalf of: the Plaintiffs Prepared by: Arnold Bloch Leibler Lawyers and Advisers

Level 21 333 Collins Street MELBOURNE 3000 Solicitor's Code: 54 DX 38455 Melbourne Tel: 9229 9999 Fax: 9229 9900 Ref: 011499489 (Leon Zwier)

I, MARK ANTHONY KORDA of Level 24, 333 Collins Street, Melbourne, Chartered Accountant, MAKE OATH AND SAY that:

- I am the Second Plaintiff in this proceeding. I make this affidavit on behalf of myself and the Third Plaintiff, Ms Chesser. Ms Chesser and I are administrators of the First Plaintiff, Timbercorp Securities Limited (TSL).
- 2 Except where I otherwise indicate, the matters deposed to in this affidavit are deposed to from my own personal knowledge of the facts. Where I depose to matters from information and belief, I believe such matters to be true.

A.

M. Horde

Purpose of the application to the Court

- The primary purpose of this application is to seek a direction as to whether the 3 administrators of TSL should apply to the Court to wind up each of the managed investment schemes listed in Schedule 1 (the Schemes) in accordance with their respective constitutions and on the basis that it is just and equitable to do so. On a winding up of the Schemes, according to the Scheme constitutions, the members of the Schemes, the Growers, may not receive any significant returns. Some Scheme members have advised the administrators that they do not wish for the Schemes to be wound up. On the other hand, TSL as the Responsible Entity (RE) is insolvent, as are each of the Schemes. TSL cannot meet its obligations as they fall due. The olive and almond crops the subject of the Schemes will waste if they are not properly cared for and maintained. However, TSL and its administrators are under a duty to act in the best interests of the members of the Schemes (s 601FC of the Corporations Act 2001 (Cth) (the Act)). This primary duty conflicts with the practical problems arising from the insolvency of TSL and the Schemes. The making of this application for directions allows interested parties to argue their contrary views. If the Court is minded to direct that we may make the applications to wind up the Schemes, or it is not controversial to do so, then as alternative relief we will seek their winding up.
- Annexed to this affidavit and marked **MAK-A** is a current and historical extract of the records maintained by the Australian Securities and Investments Commission with respect to the First Plaintiff.

Appointment as administrators

- I am a chartered accountant and a partner of the firm of KordaMentha. I am a Registered Liquidator and an Official Liquidator of the Court. I am a member of the Insolvency Practitioners Association of Australia. I am a member of the Institute of Chartered Accountants. I have been practising in the area of corporate insolvency and financial reconstructions for 20 years.
- On 23 April 2009, Ms Chesser and myself were appointed as administrators of TSL.
- Also on 23 April 2009, the respective directors of Timbercorp Limited (ACN 055 185 067) (**Timbercorp**) and forty (40) of its wholly owned subsidiaries appointed me and one or more of four other KordaMentha partners, namely Mark Francis Xavier Mentha, Ms Chesser, Craig Peter Shepard and Cliff Stuart Rocke, as administrators of each of those companies (the **administrators**, the **Timbercorp Group** and the **Timbercorp Group Companies**). All of the appointments were made pursuant to section 436A of the Act.

J.

M. 16 de

8 TSL is a wholly-owned subsidiary of Timbercorp.

Background & extension of convening period

- Now produced and shown to me marked MAK-1 is an affidavit I produced in Federal Court of Australia proceeding no. VID 372 of 2009 which was sworn on 18 May 2009 (without exhibits) (my Earlier Affidavit). I believe that the matters to which I depose in that affidavit are true and correct.
- My Earlier Affidavit was made in support of an application by the administrators of each of the Timbercorp Group Companies that the convening period within which I must convene the second meeting of creditors of each of the Timbercorp Group Companies under section 439A of the Act (the Second Meetings) be extended up to and including 22 June 2009. The Federal Court granted liberty to me to apply to that Court for any further extension of the convening period at any time prior to 22 June 2009. Unless the convening period is further extended by the Court the Second Meetings will take place on or before 29 June 2009.
- 11 My Earlier Affidavit explains the background to the administration of the Timbercorp Group.

Timbercorp's managed investment schemes

- At paragraphs 15 to 17 of my Earlier Affidavit, I briefly explain that TSL is the responsible entity for a number of horticulture and forestry based managed investment schemes. Those schemes are registered under Part 5C of the Act, with two exceptions. In total, TSL acts as the responsible entity for 22 horticultural schemes and 11 active forestry schemes. The members of the schemes are called "Growers" in the constitutions for the schemes. In addition, there are two other horticultural "schemes" administered by the Timbercorp Group which are not, and were not required to be, registered under Part 5C of the Act (the **Private Offer Schemes**). The present application does not concern the other eight horticultural schemes (which involve mangoes, avocadoes, table grapes, citrus and "fruit salad"), the Private Offer Schemes or the 11 active forestry schemes.
- This application is made in relation to fourteen (14) of the horticultural schemes, namely the schemes for the growing of olives and almonds (the Olive Schemes and the Almond Schemes, respectively, and the Schemes, collectively). The application may be extended to other schemes operated by TSL, depending upon the outcome of current KordaMentha investigations and following further consultation with stakeholders in the administration of the Timbercorp Group.

Ayla:

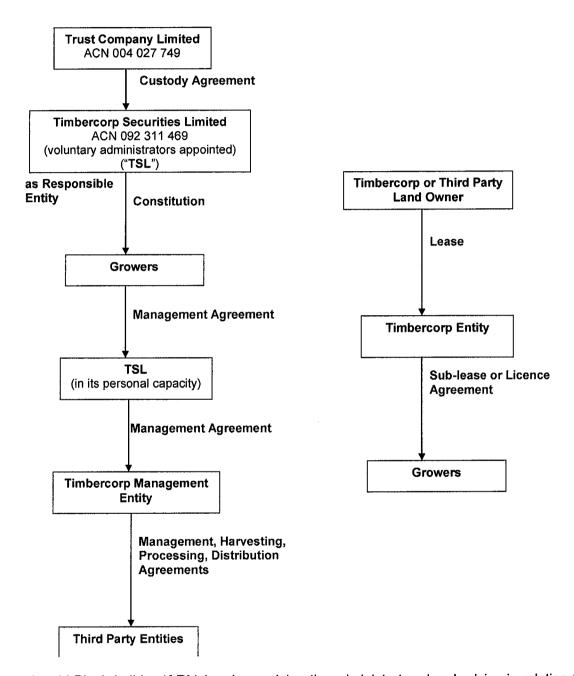

M. Horse

- To date, Growers have made net contributions of approximately \$244 million to the Olive Schemes.
- To date, Growers have made net contributions of approximately \$605 million to the Almond Schemes.
- As responsible entity of the Schemes, TSL has a duty to act in the best interests of the members, i.e. the Growers (s 601FC(1)(c) of the Act). This duty overrides any conflicting duty an officer or employee of the responsible entity has under Part 2D.1 of the Act (s 601FC(3) of the Act). Part 2D.1 contains such obligations as the duty of an officer to act in good faith in the best interests of the corporation. Pursuant to s 601FB(1) of the Act, TSL is bound to "operate the scheme[s] and perform the functions conferred on it".
- Apart from "operating" the Schemes, TSL has also entered into various agreements and carried out certain functions in relation to each of the Schemes, in its personal capacity. For example, TSL has entered into head leases with land owners and contracts with each of the Growers under which TSL is obliged to manage the operations of growing crops, and perform certain services in relation to the crops, in relation to each of the Schemes.

Jyh.

M. Horlo

The following diagram illustrates the general structure of the Schemes, the various companies which form part of each Scheme and the agreements governing them. (Some of the Schemes have joint venture structures. This diagram does not represent the structure of those schemes.)

- Arnold Bloch Leibler (**ABL**) has been giving the administrators legal advice in relation to the Timbercorp managed investment schemes.
- 20 Leon Zwier, a partner of ABL, has told me that ABL has requested all documentation relevant to the Schemes from the General Counsel for Timbercorp. Based on the documents provided to ABL by the General Counsel, ABL has informed me that the

M/2.

II. Horle

Schemes are governed by a complex suite of documents. I am informed that while there are many similarities between the documents governing each of the Schemes, they differ to a minor or a material degree.

- 21 Based on the documents provided by Timbercorp to ABL, I am informed that:
 - the documents for the Olive Schemes total 154, which is estimated to be about 4000 pages (or eight lever arch folders); and
 - (b) the documents for the Almond Schemes total 223, which is estimated to be about 4000 pages (or eight lever arch folders).
- For example, the review of the Almond Scheme documents by ABL, for the purpose of reviewing the termination provisions for each of the Almond Schemes, took approximately 20 to 25 hours.
- There is an equivalent number of documents for each of the other eight registered Timbercorp horticultural schemes and a greater number of documents for the 11 registered Timbercorp forestry schemes.
- If the Court directs me to do so, I will make those documents available to all stakeholders on the KordaMentha website but I do not intend to exhibit all of them to this affidavit or any further affidavit filed in this proceeding, unless directed by the Court to do so. I note that some of the documents contain the names and addresses of individuals.

First creditors' meeting of TSL

- On 5 May 2009, at the first creditors' meeting for TSL, I informed the creditors of TSL that:
 - (a) the current position of TSL was bleak, with insufficient funds to continue operations;
 - (b) there are many complex issues ahead for TSL, including a web of legal documents and ownership interests, as well as multiple managed investment schemes at varying stages of their life cycles;
 - (c) TSL has dual functions, to act as the responsible entity and in its personal capacity;

M. M. Mode

- (d) due to the complexities of TSL's multiple functions and obligations, it was unclear what assets at that time were available to creditors and when they may be realised;
- in order to continue operations, TSL will be dependent upon funding from multiple sources, and the ongoing provision of corporate head office support from Timbercorp;
- (f) the administrators of TSL needed to analyse assets and liabilities on a scheme by scheme basis to determine the resulting cash flows and no certainty could be given to any creditors at this initial stage.
- In relation to the horticultural schemes, I informed the creditors of TSL that the horticulture operations had insufficient funds to continue operations. I confirmed the majority of head leases of land were paid up until 30 June 2009, and that the Timbercorp intermediary management entities have no funds to meet obligations to third party managers. I concluded by saying that significant amounts are owed to third party service providers and this has the potential to impact on the ability of some service providers to continue managing the schemes.

Insolvency of TSL

- 27 Following further investigation by Ms Chesser, me and staff of KordaMentha, it has become apparent that TSL is hopelessly insolvent.
- TSL's current position can be summarised as follows:
 - (a) TSL has no funds on hand, in its own capacity. To the extent that it does come into funds (for example, fees it may be entitled to under scheme documents) such funds will be insignificant compared to the funds required by TSL to meet its obligations as responsible entity. TSL also holds grower proceeds on trust in agency accounts but these funds beneficially belong to Growers and, as such, are not available for use by TSL in its own right;
 - (b) TSL, in its own right, has no significant assets;
 - (c) TSL has no employees; and
 - (d) TSL has no infrastructure.

M. Horle

29 Further:

- (a) the quantum and timing of harvest proceeds of a number of the TSL schemes is uncertain;
- (b) the majority of head leases of the land which is utilised in relation to the Schemes (many of which are with Timbercorp Group Companies and some of which are with third party landowners) are only paid until 30 June 2009;
- (c) due to direct and joint venture ownership in a number of schemes, the Timbercorp Group is required to contribute to ongoing scheme costs; the Timbercorp Group does not have the financial capacity to meet these ongoing obligations;
- (d) Timbercorp has historically borne a portion of the management costs of many of the Schemes pending receipt of harvest proceeds and/or payment by Growers of management fees in arrears, but Timbercorp is not in a position to do so in the future;
- (e) Timbercorp Finance Pty Ltd (Administrators Appointed) (Timbercorp Finance), a Timbercorp subsidiary, has historically provided finance to certain Growers, to enable them to pay their ongoing scheme obligations and Timbercorp Finance is no longer in a position to continue to finance Growers.
- In relation to the Olive Schemes, approximately \$62 million is required for operations, rental and other expenditure ("opex") for the 2010 crop management and harvest. TSL does not have \$62 million in available funds. Under the Scheme constitutions, TSL is not permitted to borrow \$62 million, or any funds. TSL can invoice Growers for estimated opex of the 2010 crop management and harvest. Historically, Timbercorp did so in September each year, requiring Growers to pay their proportionate contributions of opex by the end of October of that year. Timbercorp paid for the opex for the months of July, August, September and October, and then collected the estimated opex from Growers for the period July to June at the end of October in each year. In other words, Timbercorp invoiced Growers four months in arrears and eight months in advance.
- However, even if TSL now invoiced the Growers for the opex for the 2010 crop management and harvest, we know that it will not be paid in full by them. First, Timbercorp Group Companies own (either as joint venture partners or as holder of lots in their own right) a small percentage of the interests in the Olive Schemes and as those companies are insolvent, they cannot pay any opex charge levied on them by TSL. Secondly, some Growers have previously been able to borrow contributions from Timbercorp Finance but it too is insolvent and cannot make any further advances to

M. Hado

Growers who require financial assistance. Thirdly, a percentage of Growers will, in any event, default in making payments. (As set out below, since the commencement of the administration of the Timbercorp Group of Companies, grower default rates in other schemes have increased.)

- 32 The \$62 million opex can only be raised if all Growers make their contributions on a timely basis. And the Olive Scheme documents do not permit us to raise additional funds from Growers in excess of their proportionate contribution of estimated opex to meet anticipated defaults. The interdependency of Growers on one another, in the absence of a financially strong responsible entity of the Schemes, makes it extremely difficult for management investment schemes to be financially rehabilitated when they are in financial distress.
- In relation to the Almond Schemes, approximately \$247 million is required for opex for the 2010 crop management and harvest over the next 12 months. TSL does not have \$247 million. As explained, TSL is not permitted to borrow \$247 million, or any funds at all, as responsible entity. For the reasons referred to above, even if TSL invoiced the Growers for the opex required, the necessary funds cannot be procured.

Grower default rates in forestry & other schemes post Timbercorp voluntary administration

- In relation to the Timbercorp forestry schemes, approximately \$9.6 million is required for rental expenditure for the period from 1 July 2009 to 30 September 2009. TSL does not have \$9.6 million. On 18 May 2009, KordaMentha sent invoices to the forestry Growers for estimated opex totalling \$16.1 million. Those payments were due on 31 May 2009. To date, only \$5.03 million or about 31% of the total amount invoiced has been received.
- 35 KordaMentha is still preparing cash flow analyses for the other schemes operated by TSL, and for the Private Offer Schemes.

Insolvency of the Olive and Almond Schemes

- Now produced and shown to me marked **MAK-2** is a chart which sets out, in relation to each of the Olive Schemes, the net sales for each scheme, the gross proceeds, the total operating expenditure for the 2010 harvest, the net operating cashflow, and operating cashflow over time.
- Now produced and shown to me marked **MAK-3** is a chart which sets out, in relation to each of the Almond Schemes, the net sales for each scheme, the gross proceeds, the total operating expenditure for the 2010 harvest, the net operating cashflow, and operating cashflow over time.

J. M. Hode

These charts have been prepared from historical accounts from the Schemes, Timbercorp management budgets and assumptions, and available third party data. It is clear from both of these charts that each of the Olive Schemes and the Almond Schemes are unable to meet their obligations, as and when they fall due. I regard each of these schemes as being insolvent. In simple terms, the proceeds of sale for the olives and almonds to be harvested in 2010 will be less than the costs of growing them.

Further contributions

Having regard to the current financial position of TSL, the cash requirements to complete the management and harvest of the 2010 olive and almond crops, the likelihood of Grower defaults and the insolvency of the Timbercorp Group of Companies, I do not believe it is in the best interests of growers for KordaMentha to raise invoices requesting them to pay the estimated opex for the 2010 financial year, on an accelerated basis, or at all.

Secured creditors

- The Olive Schemes and Almond Schemes each utilise land which is encumbered pursuant to various facility agreements. The various landowners also own water rights, some of which are similarly encumbered.
- In respect of the Olive Schemes, the land and the water rights, are for the most part, owned by companies in the Timbercorp Group.
- In respect of the Almond Schemes, approximately half of the land and water rights are owned by companies in the Timbercorp Group. The other half of the Almond Scheme land and water rights are owned or controlled by Timbercorp Primary Infrastructure Fund (TPIF). (TPIF is a registered managed investment scheme which is listed on the Australian Stock Exchange.) Timbercorp owns approximately 45% of the issued units in TPIF.
- In addition, for some of the Almond Schemes, there are encumbrances over the receipts of rent received from Growers which ultimately secure the rent payable to some of the landowners.
- When administrators were appointed to the Timbercorp Group Companies, this triggered a breach of covenant of the various facility agreements. Such breaches generally entitle the financier to serve a notice of default and to exercise other rights, such as the right to appoint a receiver and manager over the encumbered property. Although the financiers who hold mortgages and other securities over the land, water rights, and rent receipts

Je. M. Hod

have not served notices of default, I expect that the financiers will make formal demands for repayment of their facilities. The secured amount outstanding in relation to the land, water rights and other assets, for the Olive and Almond Schemes alone, is approximately \$285 million.

TSL Committee of Creditors

- On 3 June 2009, a meeting of the committee of creditors of TSL was held, concurrently with the meetings for the committees of creditors for other Timbercorp Group Companies.

 The committee of creditors comprises:
 - (a) financiers;
 - (b) landlords; and
 - (c) Grower/investor representatives.
- I informed TSL's committee of creditors that Ms Chesser and I would be making this application to the Court.
- I asked the TSL committee members whether they had any questions or comments to make about this application, and generally.
- One of the Grower/investor representatives on the TSL committee who was at the meeting, complained that if the Timbercorp managed investment schemes were to be wound up, this may leave the growers with nothing, when they have contributed \$2 billion. Leon Zwier explained to him that TSL was insolvent and so too the Olive and Almond Schemes, and that the administrators could not see any alternative other than to make this application and to invite him and others with views contrary to the administrators to be heard by the Court.
- Following the meeting, the Grower/investor representatives on the TSL creditors' committee sent a letter to Ms Chesser and me. Now produced and shown to me marked MAK-4 is a letter from TSL Grower representatives to KordaMentha dated 3 June 2009.
- On 4 June 2009 ABL wrote to Grower/Investor representatives. Now produced and shown to me marked **MAK-5** is a letter from ABL to TSL Grower representatives dated 4 June 2009.

M. Horla

Administrators will consider all bona fide alternative proposals for the Schemes

- The Act contemplates a process whereby the responsible entity of a managed investment scheme can be replaced. There are also mechanisms in certain leases and management agreements to which TSL is a party in its own capacity, which allow for the assignment of TSL's interests in those agreements to an entity which replaces it as responsible entity of the relevant Scheme. Schedule 2 to this affidavit lists the Olive and Almond Schemes and the number of Growers in each of those schemes.
- The TSL administrators will consider all bona fide alternative proposals to replace TSL as responsible entity for any one or more of the Schemes if that proposal is in the best interests of Growers. We will also make all necessary information available to bona fide parties who wish to consider such a proposal.
- One of the Grower representatives at the TSL committee of creditors meeting on 3 June 2009 indicated that the Growers may want to vote on any alternative proposals put to the administrators of TSL. Any consideration of this issue will have to be made in the context that TSL currently has no funds to convene Scheme meetings of Growers or to carry out any vote.

Involvement of ASIC

The TSL administrators have informed ASIC of the administrators' intentions in relation to this application.

Directions

- I note that there are presently 18,300 grower investors across all of the Timbercorp schemes. KordaMentha has email addresses for 11,980 grower investors or their advisers. Some of the advisers pass on information received by them to individual growers.
- At this time, the TSL administrators will seek ex parte directions from the Court, including for the following:
 - (a) service of court documents on ASIC;
 - (b) service of Court documents on parties requesting service of Court process;
 - (c) service by email of Court documents on all the Committees of Creditors;
 - (d) service by email of Court documents on the directors of TSL;

M. Hado

- publication of Court documents on the KordaMentha, Timbercorp and ABL (e) websites;
- notice by email to 11,980 growers of this proceeding including a reference to the (f) KordaMentha, Timbercorp and ABL websites for further information and access to Court documents:
- whether the Court would be assisted by the administrators convening an informal (g) Growers meeting before hearing the application for directions; and
- an early return date for further directions after interested parties are either (h) informed or served with the Court documents.
- I have been told by Leon Zwier that a copy of the Originating Process and affidavit in 57 support has been late served on ASIC and that ASIC may appear at the first mention of this proceeding.

Share Structure

Note: For each class of shares issued by a proprietary company, ASIC records the details of the top twenty members of the class (based on shareholdings). The details of any other members holding the same number of shares as the twentieth ranked member will also be recorded by ASIC on the database. Where available, historical records show that a member has ceased to be ranked amongst the top twenty members. This may, but does not necessarily mean, that they have ceased to be a member of the company.

Charges Registered and Related Documents Received

Note: A charge is some form of security given over the property/assets of the company. In order to obtain details of the 'amount secured by a charge', 'the property charged', the property released from a charge or the documents relating to a satisfaction, assignment or change in details, it is necessary to obtain a 'CHARGES EXTRACT'.

AFFIDAVIT (Form 20) (Order 14 rule 2)

On /8 May 2009, I, MARK ANTHONY KORDA, of KordaMentha, Level 24, 333 Collins Street, Melbourne, in the state of Victoria, Chartered Accountant, SAY ON OATH that:

Appointment

- 1 I am the applicant in this proceeding in my capacity as joint and several administrator of Timbercorp Limited (administrators appointed) ACN 055 185 067 (TL) and 40 of its wholly owned subsidiaries described in schedule 1 of the Originating Process (collectively referred to in this affidavit as the "Timbercorp Group Companies").
- I am a partner of KordaMentha. I am a registered liquidator and official liquidator with in excess of 20 years of experience in corporate insolvency.
- On 23 April 2009, my partners, Mark Francis Xavier Mentha, Leanne Kylie Chesser, Craig Peter Shepard and Cliff Stuart Rocke (collectively referred to in this affidavit as "Administrators") and I were appointed administrators of the various Timbercorp Group Companies by the respective directors of each of the Timbercorp Group Companies pursuant to section 436A of the *Corporations Act 2001* (Cth) ("Corporations Act").

FILED ON BEHALF OF: THE PLAINTIFF CORRS CHAMBERS WESTGARTH

Lawyers Bourke Place 600 Bourke Street MELBOURNE VIC 3000

Tel:

(03) 9672 3000

Fax: Ref: (03) 9672 3010 JS/SL/9061899/2

(John Stragalinos)

- I have been appointed to all 41 Timbercorp Group Companies. Now shown to me and marked "MK-1" is a true copy of a list of the Timbercorp Group Companies which details the administrators appointed to each Timbercorp Group Company.
- I have discussed the need for this application with the Administrators. Each of the Administrators consents to the application and believes that it is in the best interests of creditors that the convening period be extended.
- Except where I otherwise indicate, I make this affidavit from my own knowledge. Where I depose to matters from information or belief, I believe those matters to be true. I am authorised by the Administrators to make this affidavit on their behalf. References in this affidavit to "we", "us", "our" or "ourselves" are references to the Administrators and I.
- Now shown to me in a folder marked "MK-2" are true copies of the records of searches of the records maintained by the Australian Securities and Investments Commission (ASIC) in relation to each of the Timbercorp Group Companies.
- On 5 May 2009, the first meetings of creditors of each of the Timbercorp Group Companies were held pursuant to section 436E of the Corporations Act. The first meetings of creditors of each of the Timbercorp Group Companies (save for Timbercorp Securities Limited (Administrators appointed) ACN 092 311 469 (TSL)) were held at 11 am in Melbourne. Approximately 200 creditors and observers attended those meetings of creditors. Now shown to me and marked "MK-3" is a true copy of the minutes (excluding the attendance register) of the first meetings of creditors of each of the Timbercorp Group Companies, with the exception of TSL.
- The first meeting of creditors for TSL was held at 2.00 pm on 5 May 2009. Given TSL is the responsible entity for the registered schemes operated by the Timbercorp Group of Companies we thought it appropriate to hold a separate meeting for its creditors. Approximately, 1000 creditors and observers attended the first meeting of creditors of TSL many of those comprising or representing "Grower Investors", being the investors in the registered managed investment schemes and private offerings. Now shown to me and marked "MK-4" is a true copy of the minutes (excluding the attendance register) of the first meeting of creditors of TSL.

M. 16N-

M. harolerina

Background

- The Timbercorp Group Companies operated an agribusiness investment company. TL is the parent entity of the Timbercorp Group Companies and is a publicly listed company on the Australian Securities Exchange ("ASX").
- The Timbercorp Group Companies primary business activities were the establishment, development, marketing and management of primary industry based projects, the acquisition of land, water rights and infrastructure to support projects and the provision of finance to "Grower Investors" in projects. The Timbercorp Group Companies have invested more than \$2 billion in agribusiness projects on behalf of 18,500 investors since 1992.
- The activities of the various Timbercorp Group Companies included the establishment, financing and marketing of projects through to harvesting, processing and end-sales. The various Timbercorp Group Companies were major participants in domestic and export markets including almonds, olive oil, citrus, table grapes, mangoes, avocados, garlic and glasshouse tomatoes, as well as Australia's wood fibre exports through eucalypt plantation projects.
- Now shown to me and marked "MK-5" is a true copy of a Timbercorp Group Structure Chart. In summary, the group structure comprises 4 corporate entities, 7 forestry entities and 29 horticulture entities. The operations of the Timbercorp Group of Companies can be broadly categorised as follows: corporate (including head office located at 461 Bourke Street, Melbourne), forestry, almonds, olives, other crops and a loan book.
- Now shown to and marked "MK-6" is a true copy of a chart that summarises the forestry and horticultural assets the Timbercorp Group Companies have under management, by geographical location.
- Generally the investments undertaken by the Timbercorp Group Companies were funded by investors who are commonly described as "Grower Investors". The Grower Investors invested in the various forestry and horticultural registered managed investment schemes ("MIS Schemes"). At the time of the appointment of administrators, the Timbercorp Group Companies operated 33 MIS Schemes.
- TSL acts as the responsible entity for the MIS Schemes. TSL holds an Australian Financial Services Licence, licence number 235653 ("AFS Licence"). The AFS Licence remains in place. TSL has notified the Australian Securities and Investments Commission ("ASIC") of recent breaches of its licence conditions arising from or in connection with the insolvency of

/ harolina

TSL.

M. Hal

- By way of a broad example of a typical MIS Scheme, a Grower Investor would invest in an 17 MIS Scheme by:
 - applying to become a member of that MIS Scheme; (a)
 - sub-leasing identifiable allotments of land, typically from TSL in its personal (b) capacity;
 - engaging TSL or another Timbercorp Group Company in its personal capacity to (c) plant, tend, harvest, process and/or sell the timber or horticultural product ("Management Services").

In other instances, Grower Investors were granted licences in their allotments of land or entered into joint venture arrangements with the relevant land owning entity and TSL. TSL delegated many of the Management Services to other Timbercorp Group Companies or third parties.

- Various other Timbercorp Group Companies act as managers for a number of forestry and 18 horticultural projects which are not registered as managed investment schemes ("Private Offer Schemes"). I understand that there are approximately 33 current MIS Schemes and 2 Private Offer Schemes (collectively, the "Schemes"). Our assessment of the Schemes continues to be ongoing and significant resources are being dedicated to understanding the current financial and legal position of these Schemes.
- As at the date of our appointment as administrators, the Timbercorp Group Companies 19 employed 167 employees nationwide, comprising:
 - Approximately 130 employees in head office and forestry operations that are (a) employed by TL; and
 - Approximately 37 employees in forestry operations that are employed by (b) Timbercorp Forestry Pty Ltd (Administrators appointed) ("Timbercorp Forestry").
- At the time of swearing this Affidavit, all employees remain employed by their respective 20 entities and no employees have been made redundant. The number of employees which remain employed during the administration of the Timbercorp Group Companies will depend on whether the Administrators are able to obtain further funding to continue the limited operations, the outcome of the review of the Schemes and the results of any sale of assets program. JT. Honde

A harobina

Financial Position

- 21 Since the date of our appointment, we have undertaken and continue to undertake the following investigations in relation to the financial position of the Timbercorp Group Companies:
 - (a) examining the flow of funds through the various Timbercorp Group Companies and the use of intercompany accounts;
 - (b) assessing the process for receipt and distribution of harvest proceeds to the
 Timbercorp Group Companies and Grower Investors;
 - (c) preparation of corporate and operational cash flows to understand the Timbercorp Group Companies monthly commitments; and
 - (d) assessing each Scheme to understand the underlying viability of the Scheme from both a Grower Investor and Timbercorp Group Company perspective;
 - (e) analysis of the Grower Investor loan arrears.
- Our initial investigations have revealed the following financial position of the Timbercorp Group Companies (in general terms):

Timbercorp Group Companies Estimated Financial Position		
Liabilities		
Employee entitlements (including redundancy entitlements)	\$5 million	
Secured lenders	\$661 million	
Unsecured creditors	\$14 million	
Other loans, debt notes, etc	\$250 million	
Contingent creditors		
• Lessors	Amount unknown	
• Growers	Amount unknown	
Assets		
Land (owned and leased)	120,000 ha (Value unknown)	
Water rights (owned and	153,000 ML (Value unknown)	
long term leases)		
• Loan Book	\$478 million	
Plant and equipment	value unknown	

8 bantine

M. Hon

5115619/1

- The value of the Timbercorp Group Companies' assets and liabilities contained in the above table are on a group basis. They are based upon preliminary figures and are subject to further review and investigations.
- Preliminary investigations indicate that the Timbercorp Group Companies have combined liabilities of \$661 million owing to secured lenders, \$250 million owing in other loans and debts, \$14 million owing to unsecured creditors and \$5 million owing in respect of employee entitlements (including redundancy payments). At this stage, there is no current estimate for claims which may be made by Grower Investors or owners of land or plant and equipment leased to the Timbercorp Group Companies in connection with the Schemes.
- 25 Preliminary investigations indicate that the Timbercorp Group Companies have combined assets of 120,000 hectares of large scale forestry and horticulture land (owned or leased), 150,000 mega litres of water rights, \$478 million in loans (mostly due from Grower Investors) and some plant and equipment which is yet to be valued.
- The companies within the Timbercorp Group Companies hold substantial land holdings throughout Australia (approximately, 120,000 hectares). Approximately 54,397 hectares is held as freehold while approximately 66,008 hectares is held as leasehold. There are approximately 700 third party lessors (which includes leasehold land and plant and equipment) and the leases are predominately entered into with either TL or TSL. Our investigations have confirmed that the vast majority of land lease payments under these third party leases are paid up until 30 June 2009. Since the date of our appointment, the Administrators have only "disclaimed" (by issuing a notice pursuant to section 443B of the Corporations Act) one lease, which consisted of a lease of unused office space in the Sydney CBD.
- 27 Investigations are continuing in relation to the position of secured creditors and the security held by each secured creditor. There are a range of secured creditors throughout the companies in the Timbercorp Group Companies. Some secured creditors hold registered fixed and floating charges over the assets of certain companies, some hold registered land mortgages, others hold security over water rights and mortgages over contractual rights.

of harolina

5115619/1

- 28 The secured creditors include the following financiers:
 - (a) Bank of Scotland International (in its own right and as part of a bank syndicate);
 - (b) Australia and New Zealand Banking Corporation (in its own right and as part of bank syndicate);
 - (c) Westpac Banking Corporation (as part of a bank syndicate);
 - (d) Commonwealth Bank of Australia;
 - (e) Permanent Nominees (Aust) Limited (as trustee for numerous bond holders);
 - (f) Trust Company Fiduciary Services Limited (formerly known as Permanent Trustee Company Limited) (as trustee for numerous bond and note holders);
 - (g) Mirvac Funds Management Limited (as trustee for the Australian Sustainable Forestry Investors 2) and ASIF (WA) Pty Ltd (as mortgagee under various mortgages of contractual rights).
 - 29 In addition, GE is a lessor of plant and equipment to certain companies in the Timbercorp Group of Companies. This plant and equipment predominately comprises harvesting equipment.
 - The Administrators are in frequent dialogue with all of the secured creditors and GE. No secured creditor (including the bank syndicate) has taken any steps to enforce their security.

Actions and Investigations to Date

Overall Strategy

- Upon our appointment as administrators, we implemented a three point plan which comprised:
 - (a) an immediate suspension of forestry and horticulture operations to enable funding options to be determined; and
 - (b) commencing the process of assessing the viability of each project and seeking to develop and execute a strategy for each forestry and horticulture project on a project by project basis; and
 - (c) attending to statutory reporting, investigations, creditor and shareholder liaison.

S. harobina

JT. Hod

Actions Undertaken

- Since our appointment, we have undertaken and in many cases continue to undertake, 32 the following tasks in pursuit of this strategy:
 - immediately suspended all forestry and horticulture operations; (a)
 - met with various employees of the forestry and horticultural divisions to commence our analysis of the business model and the current status and (b) profitability of each project;
 - making an application to this Honourable Court for directions relating to the 2007 Timbercorp Olive Project and resuming the harvest of olives for all Timbercorp (c) Olive Projects at Boundary Bend;
 - attending to statutory obligations including notifications to: (d)
 - 167 employees; (i)
 - 5,000 creditors/suppliers; (ii)
 - 18,500 Grower Investors; and (iii)
 - 700 lessors. (iv)
 - liaising with key stakeholders including secured creditors, employees, lessors, key suppliers, key customers and joint venture partners to the Timbercorp Group (e) Companies;
 - frequently updated the numerous creditors and Grower Investors by posting and regularly updating "Frequently Asked Questions" on our firm's web site and (f) Timbercorp's web site;
 - handled a significant volume of queries from creditors including Grower Investors; (g)
 - operating a "hotline" for creditors and Grower Investors. At the commencement of the administration we received approximately 1000 calls per day, and currently (h) it receives between 100 to 200 calls a day;
 - continuing to employ all employees of the Timbercorp Group Companies; (i)
 - holding meetings of employees to provide them with updates on the (j) M. Hod administration;

II. harobina

- (k) collecting outstanding monies under the loan book due to the relevant Timbercorp Group Companies, namely, Timbercorp Finance Pty Ltd (Administrators appointed);
- (I) assessing numerous claims by creditors and third parties and the security position of various creditors who assert security against the Timbercorp Group Companies;
- (m) holding the first meetings of creditors of the Timbercorp Group Companies pursuant to section 436E of the Corporations Act;
- (n) liaising and appointing insurance brokers to understand the insurance position of the Timbercorp Group Companies operations;
- (o) seeking and obtaining legal advice where appropriate on a range of issues, including issues concerning the legal rights and obligations of Grower Investors and the Timbercorp Group Companies in relation to the Schemes.

Review of each Scheme

- Since our appointment, we have undertaken and continue to undertake a review of the financial and legal position of each Scheme in order to determine a strategy for each Scheme. This review is both complex and time consuming and significant resources have been dedicated to this review. In the course of this review, we have undertaken and continue to undertake, the following tasks:
 - (a) reviewing forestry and horticultural land and equipment lease commitments;
 - reviewing forestry and horticulture scheme documents pertaining to distribution of harvest proceeds;
 - (c) held meetings with horticultural project partners to discuss immediate operational issues in relation to their respective schemes;
 - investigating property used in connection with the Schemes and the business,
 affairs, financial circumstances and viability of the Schemes;

II. harokina

11.16 de

(e) reviewing Schemes from two perspectives, the Grower Investor and the manager of each Scheme and analysing and considering a strategy for each Scheme and considering whether a scheme meeting ought be held.

This analysis will need to be completed before any substantial steps can be undertaken to sell any assets of the Timbercorp Group Companies as the rights and position of Grower Investors will impact on a sale of assets strategy.

Sale of Assets

- We have also commenced the process of exploring the possibility of selling assets, such as the Forestry division. Given the issues concerning the Schemes and the rights of Grower Investors, any sale process raises complex issues and we will require further time to explore ways to structure and undertake sales in order to maximise the return to all creditors and stakeholders having regard to their respective legal entitlements. To date, we have taken the following steps in this process:
 - (a) contacted all parties that submitted offers in the previously unsuccessful sale process for the forestry assets and businesses which was undertaken in the months prior to our appointment;
 - (b) received and collated informal expressions of interest from potential purchasers;
 - (c) considered and produced a preliminary sale process plan and timetable;
 - (d) commenced drafting of an information memorandum; and
 - (e) commenced a review and update of data room and other due diligence materials.

Administrator's Investigations

- During the administration, we have also commenced our investigations of the affairs of the Timbercorp Group Companies. In addition to the investigation of the financial position and review of the Schemes described above, our investigations have included a preliminary examination of the following issues:
 - (a) a review of the financial position of each company in the Timbercorp Group of Companies;

7. And

I. harobina

- holding various meetings with key employees to assess the Timbercorp Group (b) Companies position, and to correspond with them about pre-appointment entitlements and post-appointment staffing issues;
- sending the Report as to Affairs (RATAs) to the directors of the Timbercorp (c) Group Companies. The completed RATAs have now been received from the directors and we are currently reviewing them;
- investigating the lease position of the Timbercorp Group Companies and (d) determining the extent of lease liabilities. This task alone took several days of work to complete given the vast number of leases entered into by the Timbercorp Group Companies.
- Many of the issues impacting on the Timbercorp Group of Companies are very complex 36 and will require further investigation.
- We have also attended several meetings and had numerous discussions with 37 representatives of ASIC and as requested, we have supplied information to ASIC.

Funding

- At the time of our appointment, the Timbercorp Group Companies had insufficient funds 38 to continue normal operations. Since our appointment we have reviewed the financial position of the entities within the Timbercorp group in order to determine our ability to continue limited operations where possible in order to implement our overall strategy.
- In general terms, we have attempted to source funding from the following sources: 39
 - Normal incoming receipts. (a)
 - Project partners discussions have taken place with project partners, such as (b) Boundary Bend Limited, in an effort to source funding to continue operations.
 - Secured creditors discussions have taken place with various secured creditors (c) whereby we have requested additional funding from secured creditors. The secured creditors are currently considering our request.
 - Collection of the unencumbered loan book part of the loan book held by the (d) relevant Timbercorp Group companies is unencumbered.
 - Reviewing unencumbered assets of the Timbercorp Group of Companies that (e) can be realised. M. Honle

Il. hardeira

- I believe that it is in the interests of creditors generally for the Timbercorp Group 40 Companies to continue operations on a limited basis during the administration in order to implement our strategy as set out above. Even with limited operations, we estimate that costs will be incurred by the Timbercorp Group of Companies on a group basis. Nonetheless, the Administrators believe that it is in the best interests of creditors generally for these costs to be incurred in order for us to be in a position to complete the review of the Schemes and to undertake sales of assets or a restructure which should maximise the proceeds available to all creditors. We will closely monitor costs and are taking active measures to reduce the costs as quickly as possible including the reduction of operations.
- If the Administrators and I form the view that continuing to incur these costs and/or the 41 continuation of the administrations is not in the best interests of creditors, we will convene the meetings of creditors forthwith.

Possible Deed of Company Arrangement

At this stage we have not received any proposals for Deeds of Company Arrangement, 42 nor have we had the opportunity to explore the possibility of putting forward a Deed of Company Arrangement. Given the complex issues that have arisen and will continue to arise in the administration, it may be necessary to restructure the companies or realise the major assets through deeds of company arrangement.

Need for an extension

- There are a number of reasons as to why we seek an extension of the convening period 43 in relation to the Timbercorp Group Companies which include:
 - it is, in my experience, a very large administration that raises many complex (a) issues:
 - the extension will provide us with further time to continue our strategy as set out (b) in this Affidavit. In particular, it will provide us with time to review the financial position of each Scheme, review the various scheme documentation, assess the interests of all stakeholders, determine the willingness of different stakeholders to

make further financial contributions to the operations of Timbercorp Group Companies or individual Schemes, progress the sale of any asset/business as a going concern (which may be more difficult if the Timbercorp Companies were placed into liquidation); M. Hand

II. hambina

- (c) there are a complex web of legal documents (numbering many thousand) and various interests which need to be considered in detail, particularly in relation to the Schemes. Each of the Schemes is structured and functions in a different manner, to minor or material degrees;
- (d) there are various complexities we need to further investigate including TSL's separate roles as responsible entity to the MIS Schemes, lessor to the Grower Investors and provider of Management Services to the Grower Investors;
- it will allow us to explore the possibility of restructuring the Timbercorp Group
 Companies and/or one or more of the Schemes or realising assets through deeds of company arrangement if appropriate;
- (f) it will allow us to investigate the financial affairs of the Timbercorp Group Companies;
- should the extension be granted, the Administrators and I will be in a far better position to prepare a reasoned and meaningful statement setting out our opinion in accordance with section 439A(4) of the Corporations Act, whether it would be in the interests of creditors of each of the Timbercorp Group Companies to resolve to:
 - (i) execute a Deed of Company Arrangement;
 - (ii) end the administration; or
 - (iii) wind the company up.
- Under subsection 439A(3) of the Corporations Act, I am required to convene a meeting of creditors of each of the Timbercorp Group Companies pursuant to section 439A or to apply to the Court to extend the convening period for each meeting on or before the end of the convening period.
- 45 Pursuant to section 439A(5)(b) of the Corporations Act, the convening period for each of the Timbercorp Group Companies ends on 21 May 2009.
- Accordingly, we seek to have the convening period extended by 120 days to 21 September 2009 for each of the Timbercorp Group Companies.

N. havobrina

In the event that we are able to convene a meeting of creditors of each of the Timbercorp Group Companies before 21 September 2001, we will do so. An order to accommodate 47 such an eventuality is also sought from the Court.

Committee of Creditors

- Various of the Timbercorp Group Companies have formed Committee of Creditors. The members of the Committee of Creditors comprise representatives of the following classes 48 of creditors:
 - Secured creditors; (a)
 - Grower Investors; (b)
 - Lessors: (c)
 - Trade creditors; and (d)
 - Employees. (e)
 - Now shown to me and marked "MK-7" is a true copy of the list of the Timbercorp Group Companies in administration distinguishing between those which have formed committee 49 of creditors and those which have not. From our initial investigations, it appears that those companies which have not formed committee of creditors have few creditors (apart from inter company loans) and are not key trading entities.
 - Now shown to me and marked "MK-8" is a true copy of a circular to creditors dated 15 May 2009 sent to the members of the Committee of Creditors of the various Timbercorp 50 Group Companies in relation to this application. We have invited the Committee of Creditors, to raise any objections or queries in relation to this application by 5pm on Monday, 18 May 2009. I propose to file a further affidavit setting out any responses received by the Committee of Creditors to the circular.
 - Should the extension be granted, we will continue to report regularly to the Committee of Creditors of the various Timbercorp Group Companies on the progress of our overall 51 strategy, particularly on, the funding of operations, our review of the Schemes and its impact on the sales of assets or restructure strategy. Should the extension be granted, we will also seek the input of the Committee of Creditors of the various Timbercorp Group Companies as to when the meetings of creditors should be convened.
 - For the reasons set out in this affidavit, and having regard to the fact that the Administrators and I believe that it is in the best interests of creditors to do so, I 52 respectfully request this Court to make orders in the terms set out in the accompanying J. 16 Ma A, hardina application.

Reasons for Urgent Application

I respectfully request that our application be heard as matter of urgency as any application to extend the convening period should be made to the Court during the convening period. The convening period for the Timbercorp Group Companies ends on Thursday, 21 May 2009. If an extension is not granted we will need sufficient time to prepare our report to creditors and prepare notices of meeting in order to convene the meeting of creditors. Accordingly, I seek to have this application heard on Tuesday, 19 May 2009.

Dear Sir/Madam

Timbercorp Securities Limited

We write to you as the grower representatives on the Creditors Committee of Timbercorp Securities Limited.

You have stated in your report to the Committee today that you are proposing to make application to the Federal Court for directions concerning the winding of the Timbercorp almond and olive managed investment schemes.

You have not discussed any such proposal with the grower representatives on the Committee. Nor have you supplied any other information to the Committee concerning the schemes, other than the olive schemes.

We also understand that you have had approaches from various persons wishing to become responsible entity of different schemes and have refused or failed to supply them with sufficient information.

Can you advise:

- 1. Are you proposing to apply to the court for directions to wind up the forestry schemes?
- 2. If not, are you proposing to apply to court for any other directions or orders within the next few days?
- 3. When are you going to provide the Committee with information concerning all of the schemes?
- 4. Have you been approached by persons who may be potential responsible entities for any of the schemes (including the almonds and olives) requesting information concerning the schemes?
- 5. Have you provided them with the information they have requested?

We believe it is appropriate for us to represent growers at court and to be independently represented at court by lawyers of our choosing and for the costs of such representation to be borne by Timbercorp.

We also request that you undertake to give us two clear business days notice of any proposed application.

Can you provide your advice on the above and confirm your acceptance of our request for independent representation at court at your earliest convenience and no later than 4pm Thursday 4 June 2009.

Yours faithfully

Dear All

Timbercorp Securities Limited

I act on behalf of the Timbercorp Securities Limited Administrators.

Thank you for your letter of 3 June 2009 which was sent following the meeting of the various Timbercorp committees of creditors held on 3 June 2009.

The Administrators are mindful of their duties under the *Corporations Act* in general and s 601FC in particular.

Consultative process

Last Thursday, 28 May 2009, the Timbercorp Securities Limited Administrators held an informal meeting with the grower representatives. That meeting lasted 2½ hours. The Administrators provided the grower representatives with an update on the managed investment schemes.

As you will appreciate, the Administrators convened the meetings of the various Timbercorp committees of creditors on 3 June 2009, to consult with them and investors, and to keep the creditors and investors informed of developments in the administration of the Timbercorp Group.

Responsible Entity insolvent

As the Administrators explained generally at the meeting:

- TSL, in its own capacity, has no funds on hand;¹
- TSL, in its own right, has no significant assets;
- TSL has no employees; and
- TSL has no infrastructure.

¹ To the extent that it does come into funds (for example, if it has rights to a share of crop proceeds) they will be insignificant compared to the funds required by TSL to meet its responsible entity obligations. TSL also holds on trust grower proceeds in agency accounts, on behalf of growers, but these funds are not available for use by TSL in its own right.

Arnold Bloch Leibler Page: 2

Date:

4 June 2009

Olive Schemes and Almond Schemes also insolvent

The Administrators also explained that the olive schemes and almond schemes are unable to meet all of their obligations as they fall due for payment. I attach as a courtesy a copy of spreadsheets which explain that cash flow deficiency on a scheme by scheme basis.

Proposed application to the Court

The Administrators advised the committees that in these circumstances they believed it was appropriate for Timbercorp Securities Limited to seek directions from the Court as to whether it is proper for them to apply for the olive and almond schemes to be wound up. They will seek directions about the winding up of the schemes because some growers assert that it may not be in the best interests of growers to wind up the schemes. The Administrators do not see any commercial alternative. However they remain ready to treat with any bona fide party that can propose an alternate arrangement to a winding up of the schemes that produces a better return to growers.

The Administrators intend to make the application in the Supreme Court of Victoria and will initially seek informal directions about service and an early return date post service for further directions. The Administrators propose serving papers by email on ASIC, the committees of creditors, interested growers, and the directors of Timbercorp Securities Limited. The Administrators will also propose emailing all growers notice of the process. The Administrators will post all court papers on the KordaMentha website. If you believe that other parties should be notified please let me know.

Information

The Administrators provided detailed information to the committees of creditors on 3 June 2009 today and explained their reasons for the proposed course.

Other potential Responsible entities

The Administrators will consider any alternate arrangement including the appointment of an alternate Responsible Entity to schemes, if it is in the best interests of growers. But that is not an easy transaction to consummate when the Administrators have no significant money and the various crops will waste without immediate care and maintenance.

The cash flow required on all schemes for the next 12 months exceeds \$300 million.

A new Responsible Entity of any one scheme takes over the liabilities properly incurred by the prior Responsible Entity in relation to that scheme (see s 601FS, *Corporations Act*). The old Responsible Entity can give no warranty about those liabilities and even if it did, it is impecunious.

There is much ill-informed speculation about what the Administrators will or will not do. For the avoidance of doubt the Administrators will treat with any bona

Arnold Bloch Leibler

Page:

4 June 2009

fide party that wishes to take over the Responsible Entity role. The Administrators will provide such information as they deem necessary and appropriate as they would in any transaction. They will act in the best interests of growers. If they regard any issue as legally controversial they will seek directions from the Court as they now propose doing.

Specific questions

- The application the Administrators will make is for directions as referred to above and alternatively a winding up of the olive and almond schemes. The Administrators will ensure all interested parties are informed of the applications and heard.
- The Administrators will seek only directions concerning service and an early return date on an ex parte basis. They will not serve papers before that mention.
- The Administrators will keep the committees of creditors informed with such information as is reasonably required from time to time.
- The Administrators do not reveal publicly details of parties that wish to treat with them about any assets or rights associated with the Timbercorp Group. But as stated earlier, they are mindful of their obligations to growers.
- The Administrators will provide interested parties with such information as is reasonably required for those with whom they treat.

Representation

The issue of who should represent growers and whether representative orders should be made is a matter for the Court. However I expect that the Court will wish to hear from a number of parties to ascertain their views before deciding on those issues.

As Timbercorp Securities Limited is insolvent, the Administrators cannot agree to bear the costs of the representation of all the parties. These issues may need to be dealt with by the Court but please do not assume that any costs will or can be paid in the near or longer term.

Prior notice

As stated above we will give all interested parties adequate prior notice of the first directions hearing. The Administrators wish to ensure that all stakeholders can be heard.

Yours sincerely

Partner
