

JOB OPPORTUNITIES- ELOISE COPPER MINE

AIC Copper Pty Ltd owns and operates the Eloise Copper Mine 65km South-East of Cloncurry in North West Queensland. Eloise is an underground copper mine with mine life beyond 2032 and an expansion project (Jericho project) currently under study.

We currently have the following job vacancies for which we encourage you to apply:

- **Diesel Fitters** – preventative and unplanned maintenance on Sandvik heavy vehicles and mobile ancillary equipment.
- **Fixed Plant Mechanical Fitters-** preventative and unplanned maintenance on fixed plant equipment and infrastructure.
- **Processing Operators-** Operation of ~700ktpa processing facility consisting of conventional crush and float circuit.
- **Other-** We are always on the look out for talent. Should you wish to send us an expression of interest we will gladly consider your suitability for any other roles we may currently have available or plan to recruit in future.

All roles are based onsite and FIFO from Townsville on a 15/13-14/14 roster. Onsite accommodation is provided and equipped with a gym, sports field, dining facilities and social spaces. AIC Copper offers competitive remuneration, production bonuses, ongoing career development and an exciting scope of work focused on value without bureaucracy where you can be yourself and make a difference.

Should you be interested please contact Kelly O'Kane- HR Advisor on Kelly.okane@aicmines.com.au. You may also view our current vacancies on the jobs board seek.com.au.
